

If you read nothing else....

Front door and Security

You should make sure to lock the mortice locks if you are going to leave the flat empty, and last thing at night – the **lower lock** is the most important.

Do NOT leave the key in the lock – that means that nobody can get into the flat from the outside.

Hob and Cooker

When you switch the oven on, press the clock icon on the left – the clock will then show 12:00. If you do not do this, the oven will not work!

When you are not using the hob or cooker, please **switch off the red cooker switch** on the back wall.

In an Emergency

Call **999** in the case of fire, personal attack or accident requiring urgent treatment or an ambulance.

The nearest Accident and Emergency department is:

ST THOMAS' HOSPITAL, WESTMINSTER BRIDGE RD, LAMBETH, LONDON SE1 7EH

WiFi

Network: **TNCAP8EF755**

Password: **AC6070AE21**

All upper case and the "0" are zeroes.
